- 16. Pursuant to Section 108 of the Companies Act, 2013, read with the relevant Rules of the Act, the Company is pleased to provide the facility to Members to exercise their right to vote by electronic means. The e-voting period will commence at 09.00 a.m. on Friday, 27th September, 2024 and will end at 5.00 p.m. on Sunday, 29th September, 2024. The Company has appointed Mr. Rahul Dhupar, Practicing Company Secretary, having Membership No. FCS 9446 to act as the Scrutinizer, for conducting the scrutiny of the votes cast.
- 17. The facility for voting through ballot will also be made available at the AGM, and members attending the AGM who have not already cast their vote by remote e-voting will be able to exercise their right at the AGM. Shareholders who have not cast their vote electronically, by remote e-voting may only cast their vote at the AGM through ballot paper.
- 18. All documents referred to in the accompanying Notice and Explanatory Statement are open for inspection at the Registered Office of the Company and copies thereof shall also be made available for inspection in physical or electronic form at the registered Office of the Company during office hours on all working days, except Sundays, inclusive of the date of the Annual General Meeting also such documents are available at the meeting.
- 19. In terms of Section 108 of the Companies Act, 2013 Read with the rule 20 of the Companies (Management & Administration) Rules, 2014 it is mandatory on the part of the Company to provide e-Voting facility. Company is providing facility for Voting by electronic means and the business may be transacted through such voting.

The instructions for members for voting electronically are as under:-

- i. The voting period begins on Friday, 27th September 2024 at 09.00 AM and ends on Sunday, 29th September 2024 at 5.00 PM. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date Monday, 23rd September 2024, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- ii. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- iii. Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login** **credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

iv. In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their Demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their Demat accounts in order to access e-Voting facility.

SECRETARIAL AUDIT REPORT

For the Financial Year Ended March 31, 2024 [Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members Aashrit Capital Limited Select Citywalk, 6th Floor A-3, District Centre, Saket New Delhi 110017

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Aashrit Capital Limited (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2024 ('Audit Period') complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31 March 2024 according to the applicable provisions of:

(i) The Companies Act, 2013 and the rules made thereunder;

(ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;

(iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;

(iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings; (Not applicable to the Company during the Audit Period);

The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'): -

To the Members of M/s. Aashrit Capital Limited

Report on the Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of **M/s. Aashrit Capital Limited**, ("the **Company")** which comprises the Balance Sheet as at March 31, 2024, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the Standalone Ind AS Ind AS financial statements , including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us the afore said Ind AS financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2024, and its profit and other comprehensive income, changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 (the Act). Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Financial Results section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial results under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion".

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS Financial Statements of the current year. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

| Description | of Key | Audit | Matter |
|-------------|--------|-------|--------|
|-------------|--------|-------|--------|

| The key audit matter | How the matter was addressed in our audit |
|---|--|
| 1. Valuation of Inventories in Un-Quoted Securities The company has inventories in equity shares which are un-quoted. These instruments are measured at fair value with the corresponding fair value change recognized in profit & loss. The valuation is performed by the company using a fair value hierarchy as applicable below: Level 1: valuations based on quoted prices (unadjusted) in active markets. | Our audit procedures included, among other things, an assessment of the methodology and the appropriateness of the valuation models and inputs used by management to value investments. Further, we assessed the valuation of all individual investments to determine whether the valuations performed by the company were within a predefined tolerable differences threshold. As part of these audit |

| Level 2: valuations based on other than quoted prices included within level 1 that are observable either directly or indirectly. Level 3: valuations based on unobservable inputs for the asset. The valuation of inventories is inherently subjective most predominantly for the level 2 and level 3 instruments since these are valued using inputs other than quoted prices in an active market. Key inputs used in the valuation of individual level 2investments are market price of quoted investments, illiquidity discount etc. In addition, the company determines whether objective evidence of impairment exists for individual investments. Given the inherent subjectivity in the valuation of level 3 instruments, we determined this to be a significant matter for our audit. Disclosures on the inventories are included at Note 38 to the Ind AS Financial Statements. | procedures, we assessed the accuracy of key inputs used in the valuation including observable and non-observable inputs. > We also evaluated the company's assessment whether objective evidence of impairment exists for individual investments. Based on these procedures we have not noted any material differences outside the predefined tolerable differences threshold. |
|---|--|
| 2. Impairment of financial assets (expected credit losses) Ind AS 109 requires the company to recognize impairment- allowance towards its financial assets (designated at amortized cost and fair value through other comprehensive income) using the expected credit loss (ECL) approach. Such ECL allowance is required to be measured considering the guiding principles of Ind AS 109 including: unbiased, probability weighted outcome under various scenarios; time value of money; impact arising from forward looking macro-economic factors and; Availability of reasonable and supportable information without undue costs. Applying these principles involves significant estimation in various aspects, such as: grouping of borrowers on the basis of homogeneity by using appropriate statistical techniques; staging of loans and estimation of behavioral life; determining macro-economic factors impacting credit quality of receivables; Estimation of losses for loan products with no/minimal historical defaults. Considering the significance of such allowance to the overall Ind AS financial statements and the degree of estimation involved in computation of expected credit losses, this area is considered as a key audit matter. | We read and assessed the company's accounting policies for impairment of financial assets and their compliance with respect to Ind AS 109. We tested the criteria for staging of loans based on their past-due status is in compliance with requirement of Ind AS 109 by testing a sample of performing (stage 1) loans to assess whether any loss indicators were present requiring them to be classified under stage 2 or 3 and vice versa. We evaluated the reasonableness of the Management estimates by understanding the process of ECL estimation and tested the controls around data extraction and validation Tested the ECL model, including assumptions and underlying computation. Assessed the floor/minimum rates of provisioning applied by the company for loan products with inadequate historical defaults. Audited disclosures included in the Ind AS financial statements in respect of expected credit losses |

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report but does not include the Ind AS financial statements and our auditors' report thereon. Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the Ind AS financial statements, our responsibility is to read the

other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Financial Results

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the net profit and other comprehensive income and other financial information in accordance with the recognition and measurement principles laid down in Indian Accounting Standards prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial results, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Results

Our objectives are to obtain reasonable assurance about whether the annual financial results, as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion through a separate report on the complete set of Ind AS financial statements on whether the company has adequate internal financial controls with reference to Ind AS financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial results made by the Management and Board of Directors. Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material

uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the annual financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the annual financial results, including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure - B to the Auditors' Report

<u>Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the</u> <u>Companies Act, 2013 ("the Act")</u>

We have audited the internal financial controls over financial reporting of **M/s. Aashrit Capital Limited** ("the Company") as of 31 March 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

<u>Opinion</u>

In our opinion, to the best of our information and according to the explanations given to us, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

M/S AASHRIT CAPITAL LIMITED CIN: L65923DL1972PLC317436 NOTES FORMING PART OF STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2024

1 CORPORATE INFORMATION

Aashrit Capital Limited("the Company") (L65923DL1972PLC317436) is a public Limited company domiciled in India. The Company is listed on Calcutta Stock Exchange and Metropolitan Stock Exchange. The Company is a non-banking finance company (NBFC) in India, engaged in providing Business Loan and Personal Loan and Trading in equity shares.

2 SUMMARY SIGNIFICANT ACCOUNTING POLICIES

(I) Statement of compliance and basis for preparation and presentation of financial statements

These standalone or separate financial statements of the Company have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as per the Companies (Indian Accounting Standards) Rules 2015 as amended and notified under section 133 of the Companies Act, 2013 ("the Act"), and in conformity with the accounting principles generally accepted in India and other relevant provisions of the Act. Further, the Company has complied with all the directions related to Implementation of Indian Accounting Standards prescribed for Non-Banking Financial Companies (NBFCs) in accordance with the RBI notification no. RBI/2019-20/170 DOR NBFC).CC.PD.No.109/22.10.106/2019-20 dated 13th March 2020.

Any application guidance/ clarifications/ directions issued by RBI or other regulators are implemented as and when they are issued/ applicable.

These standalone or separate financial statements have been approved by the Company's Board of Directors and authorized for issue on 30th May, 2024.

(II) Functional and presentational currency

These financial statements are presented in Indian Rupees ('INR' or 'Rs.') which is also the Company's functional currency.

(III) Basis of measurement

The financial statements have been prepared on a historical cost convention and on an accrual basis, except for certain financial instruments which are measured at fair values as required by relevant Ind AS.

(IV) Measurement of fair values

A number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and nonfinancial assets and liabilities. The Company has established policies and procedures with respect to the measurement of fair values. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(V) Use of estimates and judgements and Estimation uncertainty

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income, expenses and the disclosures of contingent assets and liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an on going basis. Revisions to estimates are recognized prospectively.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were issued. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Following are areas that involved a higher degree of estimate and judgement or complexity in determining the carrying amount of some assets and liabilities.

Effective Interest Rate (EIR) Method

The Company recognizes interest income /expense using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loans given / taken. This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well as expected changes to other fee income/expense that are integral parts of the instrument.

Provisions and other contingent liabilities

The reliable measure of the estimates and judgments pertaining to litigations and the regulatory proceedings in the ordinary course of the Company's business are disclosed as contingent liabilities. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

Provision for income tax and deferred tax assets:

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax, including the amount expected to be paid / recovered for uncertain tax positions. A deferred tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

(VI) Financial Instruments

(i) Classification of Financial Assets

- The Company classifies its financial assets into the following measurement categories:
- 1. Financial assets to be measured at amortised cost
- 2. Financial assets to be measured at fair value through other comprehensive income
- 3. Financial assets to be measured at fair value through profit or loss account

The classification depends on the contractual terms of the financial assets' cash flows and the Company's business model for managing financial assets which are explained below:

Business Model Assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel.
- > The risks that affect the performance of the business model (and the financial assets held within that business model) and the way those risks are managed
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)

The expected frequency, value and timing of sales are also important aspects of the Company's assessment. The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into

> account. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

(ii) Financial Assets measured at amortised cost

These financial assets comprise Bank Balances, Loans, Trade Receivables, Investments and Other Financial Assets. Debt instruments are measured at amortised cost where they have:

contractual terms that give rise to cash flows on specified dates, that represent solely payments of principal and interest on (a) the principal amount outstanding; and

(b) are held within a business model whose objective is achieved by holding to collect contractual cash flows.

These debt instruments are initially recognised at fair value plus directly attributable transaction costs and subsequently measured at amortised cost.

(iii) Financial Assets measured at fair value through profit and loss account

These financial assets comprises Financial Instruments (including equity shares) held for trading.

Financial instruments held at fair value through profit or loss are initially recognised at transaction cost, with transaction costs recognised in the statement of profit and loss as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the statement of profit and loss as they arise.

Financial Instruments held for trading

A financial instrument is classified as held for trading if it is acquired or incurred principally for selling or repurchasing in the near term, or forms part of a portfolio of financial instruments that are managed together and for which there is evidence of short-term profit taking.

(iv) Reclassification of financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition. Financial liabilities are never reclassified. The Company reclassified two loans as Stage 3 Asset 2021-22 and until the year ended March 31, 2024. No loan has been reclassified for the year ending 31st March 2024.

(v) Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

Financial liabilities

A financial liability is derecognized when the obligation in respect of the liability is discharged, cancelled or expires. The difference between the carrying value of the financial liability and the consideration paid is recognized in Statement of profit and loss.

(v) Impairment of financial assets

Overview of ECL Principles

The Company records allowance for expected credit losses for all loans, other debt financial assets not held at FVTPL, together with financial guarantee contracts, in this section all referred to as 'financial instruments'. Equity instruments are not subject to impairment under Ind AS 109.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both Lifetime ECLs and 12-month ECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

Based on the above, the Company categorises its loans into stage 1, stage 2 and stage 3 as described below: **Stage 1**

All exposures where there has not been a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. The company classifies all standard advances and advances up to 30 days default under this category. Stage 1 loans also include facilities where the credit risk has improved and the loan has been reclassified from Stage 2.

Stage 2

All exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired are classified under this stage. 30 Days Past Due is considered as significant increase in credit risk.

Stage 3

All exposures assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred are classified in this stage. For exposures that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount. 90 Days Past Due is considered as default for classifying a financial instrument as credit impaired. If an event warrants a provision higher than as mandated under ECL methodology, the Company may classify the financial asset in Stage 3 accordingly.

The mechanics of ECL:

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

Exposure at Default (EAD)

The outstanding balance as at the reporting date is considered as EAD by the company.

Probability of Default (PD)

It is an estimate of the likelihood of default over a given time horizon. To calculate ECL for Stage 1 loan, the company assesses the possible default events within 12 months for calculation of the 12m ECL. For Stage 2 and Stage 3 financial assets, the exposure for default is considered for events over the lifetime of the instruments. The company uses historical information where available to determine PD. Considering the different products and schemes, the company has bifurcated its loan portfolios into different pools. PD is calculated using Incremental NPA approach considering fresh slippage using historical information.

Loss Given Default (LGD)

GD is an estimate of the loss arising in case where a default occurs. It is based on the difference between the contractual cash flows due and those that the Company would expect to receive, including from the realization of any security.

(vi) Write offs

The Company reduces the gross carrying amount of a financial asset when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. This is generally the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. Any subsequent recoveries against such loans are credited to the statement of profit and loss.

(VII) Revenue Recognition

(i) Recognition of Interest Income

Interest income is recognized in Statement of profit and loss using the effective interest method for all financial instruments measured at amortized cost, debt instruments measured at FVOCI and debt instruments designated at FVTPL. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument.

The calculation of the effective interest rate includes transaction costs and fees that are an integral part of the contract. Transaction costs include incremental costs that are directly attributable to the acquisition of financial asset.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is recorded as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortized through Interest income in the Statement of profit and loss.

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than creditimpaired assets.

When a financial asset becomes credit-impaired, the Company calculates interest income by applying the effective interest rate to the net amortized cost of the financial asset. If the financial asset cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

Additional interest and interest on trade advances, are recognized when they become measurable and when it is not unreasonable to expect their ultimate collection.

Income from bill discounting is recognized over the tenure of the instrument so as to provide a constant periodic rate of return.

(ii) Sale of shares

The Company has recognised sales of equity instruments by following the spirit of Ind AS 109 on De recognition of financial instruments. The company de recognises equity instruments when it transfers and does not retains substantially all of the risks and rewards of ownership and does not retain control of the equity instruments.

(VIII) Employee Benefits

(a) Short Term Employee Benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(b) Gratuity

The company's liability towards gratuity will be recognised on the basis of actuarial valuation only if any of the employee of the company completes five continuous years of service. Up to the financial year ended March 31, 2023, no employee of the company has completed five continuous years of service.

(IX) Finance Cost

Finance costs include interest expense computed by applying the effective interest rate on respective financial instruments measured at Amortized cost. Financial instruments include bank term loans. Finance costs are charged to the Statement of profit and loss.

Effective from 1 April 2019, on application of Ind AS 116 (Leases), interest expense on lease liabilities was computed by applying the company's weighted average incremental borrowing rate which was included under finance costs. This Cost has not been incurred in the financial year ending 31st March 2024.

(X) Leases

The Company as a lessee -

As a lessee, the Company's lease asset class primarily consisted of buildings or part thereof taken on lease for office premises. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset

(ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and low value leases. For these short term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost which comprises of initial amount of lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. These are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortized cost at the present value of the future lease payments that are not paid at the commencement date, discounted using the Company's incremental average borrowing rate. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

ROU assets and Lease liabilities had been separately presented in the Balance Sheet and the principal portion of lease payments have been classified as financing cash flows. *The Company does not have any ROU Assets and Lease Liabilities during the FY 2023-24*.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116, Leases, which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has adopted Ind AS 116, Leases, effective 1 April 2019 using modified retrospective approach of transition without restating the figures for prior periods. Consequently, the company recorded the lease liability at the present value of the remaining lease payments discounted at the incremental borrowing rate and the carrying amount of right to use asset is an amount equal to the carrying amount of the lease liability on the date of initial application and hence no impact on retained earnings as on transition date. Comparatives as at and for the year ended March 31, 2019 have not been retrospectively adjusted.

On application of Ind AS 116, financial information is presented in the following manner;

- ROU assets and lease liabilities have been included within the line items Property, plant and equipment and Other financial liabilities respectively in the Balance sheet;
- (b). Interest expenses on the lease liability and depreciation charge for the right-to-use asset have been included within the line items Finance costs and Depreciation, amortization and impairment respectively in the statement of profit or loss;
- (c). Short-term lease payments and payments for leases of low-value assets, where exemption as permitted under this standard is availed, have been recognized as expense on a straight line basis over the lease term in the statement of profit or loss.
- (d). Cash payments for the principal of the lease liability have been presented within financing activities in the statement of cash flows;

Further, on application of Ind AS 116, the nature of expense in the Statement of profit or loss has changed from lease rent in previous periods to depreciation cost for the ROU asset and finance cost for interest on lease liability in the current financial year.

The said IndAS 116 is not applicable in the current financial year ending 31st March 2024.

(XI) Taxation - Current and deferred tax : Current Tax

Current tax comprises amount of tax payable in respect of the taxable income or loss for the year determined in accordance with Income Tax Act, 1961 and any adjustment to the tax payable or receivable in respect of previous years. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period. Significant judgments are involved in determining the provision for income taxes including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods.

Deferred Tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequence that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary difference could be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

The company has offset the deferred tax asset and deferred tax liability as they relate to income taxes levied by the same taxation authority and the company has a legally enforceable right to offset current tax asset and current tax liability.

(XV) Contingent Liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

(XVI) Earning per Share

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.

(XVII) Standards issued but not yet effective

Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards. There is no such notification which would have been applicable from 1 April, 2023.

31 EARNING PER SHARE

Basic earning per share (EPS) is calculated by dividing the net profit for the year attributable to equity share holders of the company by the weighted average number of equity share outstanding during the year.

Diluted earning per share (EPS) is calculated by dividing the net profit for the year attributable to equity share holders of the company (after adjusting the interest on convertible preference shares and interest on convertible bonds, in each case, net of tax, if any) by the weighted average number of equity share outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary share.

Reconciliation of total tax charge:

The tax charge shown in the statement of profit and loss differs from the tax charge that would apply if all the profit has been charged at India corporate rate. A reconciliation between the tax expense and the accounting profit multiplied by India's domestic tax rate for the year ended 31st March, 2024 and 31st March, 2023 is as follows:

36 LEASE DISCLOSURES

As a lessee :

Α

As a lessee, the Company's lease asset class primarily consist of buildings or part thereof taken on lease for office premises and used for operating activities. The Company, previously classified these leases as operating leases under Ind AS 116 based on its assessment that the lessor effectively retained substantially all the risks and benefits incidental to ownership of the underlying asset and hence, the lease payments were recognized as an expense in the Statement of profit and loss.

The following is the summary of practical expedients elected on application:

1. Applying a single discount rate to a portfolio of leases with reasonably similar characteristics.

2. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.

38 FAIR VALUE MEASUREMENT

(a) Valuation Principle

Fair value is a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on hierarchy of valuation techniques.

(b) Fair Value Hierarchy of Assets and Liabilities

The following table shows the analysis of financial instruments recorded at fair value by level of fair value hierarchy:

(c) Fair Value technique

Equity Instruments at Fair value through profit and loss account

Equity instruments in unlisted entities are initially recognised at transaction price and re-measured (to the extent information is available) at fair value which is arrived at by using the published net asset value at the measurement date. While calculating the Net Asset Value of the investee company, all the assets and liabilities of the investee company, excepts Land & Building and Investment in equity shares, are taken at book value, Land and building are measured at Stamp Duty value and Investment in equity shares are measured at fair value. For ascertaining the book value of assets, advance tax, tax deduction or collection at source as reduced by refund claimed under income tax act and any unamortised amount of deferred revenue expenditure are excluded.

(d) Movements in Level 3 financial instruments measured at fair value

The following tables show a reconciliation of the opening and closing amounts of Level 3 financial assets and liabilities which are recorded at fair value :

(e) Impact on fair value of level 3 financial instruments measured at fair value of changes to key assumptions

The table summarises the valuation techniques together with the significant unobservable inputs used to calculate the fair value of the Company's Level 3 assets and liabilities. The range of values indicates the highest and lowest level input used in the valuation technique and, as such, only reflects the characteristics of the instruments as opposed to the level of uncertainty to their valuation. Relationships between unobservable inputs have not been incorporated in this summary.

39 CAPITAL MANAGEMENT

The primary objectives of the companies' capital management policy are to ensure that the company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

40 RISK MANAGEMENT

As a financial lending institution, Company is exposed to various risks that are related to lending business and operating environment. The principal objective in company's risk management processes is to measure and monitor the various risks that company is subject to and to follow policies and procedures to address such risks.

The Company has implemented comprehensive policies and procedures to assess, monitor and manage risk throughout the company. The risk management process is continuously reviewed, improved and adapted in the changing risk scenario and the agility of the risk management process is monitored and reviewed for its appropriateness in the changing risk landscape. The process of continuous evaluation of risk includes taking stock of the risk landscape on an event driven basis.

The company has elaborate process for risk management. Major risks identified by the businesses and functions systematically addressed through mitigating actions on a continuous basis.

The major type of risk company faces in business are credit risk, liquidity risk and market risk.

I. CREDIT RISK

Credit risk is the risk that the Company will incur a loss because its customers or counterparties fail to discharge their contractual obligations. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical concentrations, and by monitoring exposures in relation to such limits.

(A). Impairment Assessment

The company is basically engaged in the business of providing retail loans and the business loans. The tenure of loans range from 6 month to 60 months.

The company's impairment assessment and measurement approach is set out in this note. It should be read in conjunction with the summary of significant accounting policies.

Definition of Default and Care

The company considers a financial instrument defaulted and therefore stage 3 (credit impaired) for ECL calculation in all cases when the borrower becomes 90 days past due on its contractual payments.

As a part of a qualitative assessment of whether a customer is in default, the company also considers a variety of instances that may indicate unlikeness to pay. When such events occur, the company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as stage 3 for ECL calculations whether stage 2 is appropriate.

It is company's policy to consider a financial instrument as cured and therefore re-classified out of stage 3 when none of the default criteria have been present for at least six consecutive month. The decision whether to classify an asset as stage 2 or stage 1 once cured depends on the updated credit grade, at the time of the cure, and whether this indicate there has been a significant increase in credit risk compared to initial recognition.

| Rating | Loans days past due (DPD) | Stages | |
|---------------------------|------------------------------|-----------|--|
| High Grade | Not yet due | Stage I | |
| Standard Grade | 1-30 DPD | Stage I | |
| Sub standard grade | 30-60 DPD | Stage II | |
| Past due but not impaired | 60-89 DPD | Stage II | |
| Individually Impaired | 90 DPD or more | Stage III | |

Company's internal credit rating grades and staging criteria for loans are as follows :

Exposure at Default (EAD)

The outstanding balance as at the reporting date is considered as EAD by the company.

Probability of Default (PD)

It is an estimate of the likelihood of default over a given time horizon. To calculate ECL for Stage 1 loan, the company assesses the possible default events within 12 months for calculation of the 12m ECL. For Stage 2 and Stage 3 financial assets, the exposure for default is considered for events over the lifetime of the instruments. The company uses historical information where available to determine PD. Considering the different products and schemes, the company has bifurcated its loan portfolios into different pools. PD is calculated using Incremental NPA approach considering fresh slippage using historical information.

Loss Given Default (LGD)

GD is an estimate of the loss arising in case where a default occurs. It is based on the difference between the contractual cash flows due and those that the Company would expect to receive, including from the realization of any security.

Significant increase in credit risk

The internal rating model evaluates the loans on an on-going basis. The rating model also assesses if there has been a significant increase in credit risk since previously assigned risk grade. One key factor that indicates significant increase in risk is when contractual payments are more than 30 days past due.

III. MARKET RISK

Market Risk is risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market factor. Such Changes in the value of financial instrument may result from changes in the price and other market changes. The company is exposed to two types of market risks as follows:

(i) Price Risk

Equity Price Risk is a risk that the fair value of equities decreases as the result of changes in level of equity indices and individual stocks. The trading and non-trading equity price risk arises from equity securities classifies at FVOCI. Since the equity securities of company are classified at amortised cost, the impact of changes in equity price is not disclosed by the company.

(ii) Prepayment Risk

Prepayment Risk is a risk that company will incur financial loss because its customers and counterparties repay or request repayment earlier or later than expected.

42 SEGMENT INFORMATION

The Company's operating segments are established on the basis of those components that are evaluated regularly by the Executive Committee (the 'Chief Operating Decision Maker' as defined in Ind AS 108 - 'Operating Segments'), in deciding how to allocate resources and in assessing performance. These have been identified taking into account nature of products and services, the differing risks and returns and the internal business reporting systems.

The company primarliy has a single operating and reporting segment; viz. NBFC Segment during the financial year ending 31st March 2024.

The accounting policies adopted for segment reporting are in line with the accounting policy of the Company with following additional policies for segment reporting.

a). Revenue and Expenses have been identified to a segment on the basis of relationship to operating activities of the segment. Revenue and Expenses which relate to enterprise as a whole and are not allocable to a segment on reasonable basis have been disclosed as "Unallocable".

b). Segment Assets and Segment Liabilities represent Assets and Liabilities in respective segments. Investments, tax related assets and other assets and liabilities that cannot be allocated to a segment on reasonable basis have been disclosed as "Unallocable".
